

FOR PERFECT VISUAL EXPERIENCE

WE HAVE DIGITAL DISPLAYS
FOR EVERY NEED – AND
WE DELIVER THEM OVER THE WORLD!

WE DESIGN, DEVELOP AND PRODUCE
DISPLAYS AND SYSTEMS FROM SIMPLE
TO THE MOST COMPLEX

OUR PRODUCTS AND SOLUTIONS ARE
DEVELOPED AND DESIGNED WITH AN
OPTIMAL PERFORMANCE

Digilight is a company that provides top-notch LED systems and solutions to customers around the world. We use our experience to work with you and create a digital display that's perfect for your business and meets high-quality standards.

We have many different LED displays that look great, work well, save energy, last a long time, and can be trusted. We want to work with suppliers and customers who we like and who share our beliefs. We work hard to do things the right way, create high-quality products, and offer friendly expert help.

We have 25 years of experience and we are proud of our skills. We want to work with people who understand the importance of being professional and who value our help. Digilight is happy to share our special knowledge and give advice without expecting a profit right away. If we can't show customers why we are worth their support, then we don't deserve it.

At Digilight, we are dedicated to constantly improving our offerings, ensuring that our customers can always recognize and enjoy the exceptional value we provide.

Panel Dimension

Cabinet Details

Full Front Service

Fully front service, including the LED modules, receiving card, psu, etc.

Both vacuum and magnetic front service tools work.

Minimalist design

Hard connection design without messy cables.

Die-cast+CNC craftwork for the panel.

Arbitrary angle design:

The panel can be cut with any angle, even 45 degree.

Can be installed with concave and convex.

Inpad is the best choice for designers.

Installation - Front

Front installation, direct wall mounting, fix the cabinet frame first, then put the modules on.
Extremely saves installation space, cabinet with only 42mm thickness.

Front Service

Clean Interior Design

Project Case

Lighter and Thinner

4.5KG/cabinet, 29mm thickness,
thinner than 95% LED displays in the industry.

2K/4K/8K Resolution

Discovery S adopts standard panels in 27",
can be spliced into standard resolution of 2K(1920×1080), 4K(3840×2160), 8K(7680×4320).
It's specifically designed for applications that require close viewing distances.
It can splice into any size to meet the needs of different application scenarios.

Easy And Convenient Maintenance

Smart module supports hot swap, plug and play.
Modular design and magnetic installation & service saves time and cost.

Fast and Flexible Installation

The cabinet is made of CNC die-casting aluminum for efficient heat dissipation.
Hidden cable design makes one-key fast lock installation available, safe and stable.
Integrated design can effectively realize fast, high-precision, uniform and seamless splicing.

Outstanding Visual Impact

Discovery S	Other
Nanosecond-level video decoding and restoration technology greatly shortens the frame time, ensuring there's no tailing and ghost superposition of fast dynamic image.	
High refresh rate brings stable and flicker-free image, presenting excellent dynamic video effects.	
High Refresh Rate	Delicate Colors
High Contrast Ratio	Anti Blue Light

Compared With LCD Display

Discovery S	LCD
Brightness Discovery S has higher brightness than LCD displays, and is not affected by ambient lighting.	
Grayscale It has higher grayscale than LCD displays, presenting vivid details, delicate colors and dynamic visual experience.	
Seamless Splicing It can be seamlessly spliced to a large screen in any size, whereas the seam of LCD displays is more than 3.5mm.	

LED WALL, LED POSTER, LED TV, ALL IN ONE !

Applications

Germany quality PCB
from Schweizer Electronic AG

HD display picture quality

- Multiple screen splicing, no black line in between
- 3840Hz refresh rate
- 160° Wide view angle
- 4x4pcs P1.25mm, 5x5pcs P1.56mm, 6x6pcs P1.875mm, exact Full HD resolution

Appearance

- Cabinet is light and thin
- Easy to setup and dismantle
- Thickness 45mm including rear frame
- Weight: 102kg/4x4pcs, 155kg/5x5pcs, 220kg/6x6pcs, 460kg/8x8pcs

Synchronous/Asynchronous mode

Low power consumption

It saves about 10% more energy than normal screen.

Low brightness and high grey scale

Suitable for long time viewing and daily use.

Flexible combination

6/5/4 cabinets high

High IP level

Adopt all-weather protection technology IP34.

- Collision protection
- Moisture protection
- Anti-static
- Efficient heat dissipation

HDR High Dynamic & High Refresh Rate Display

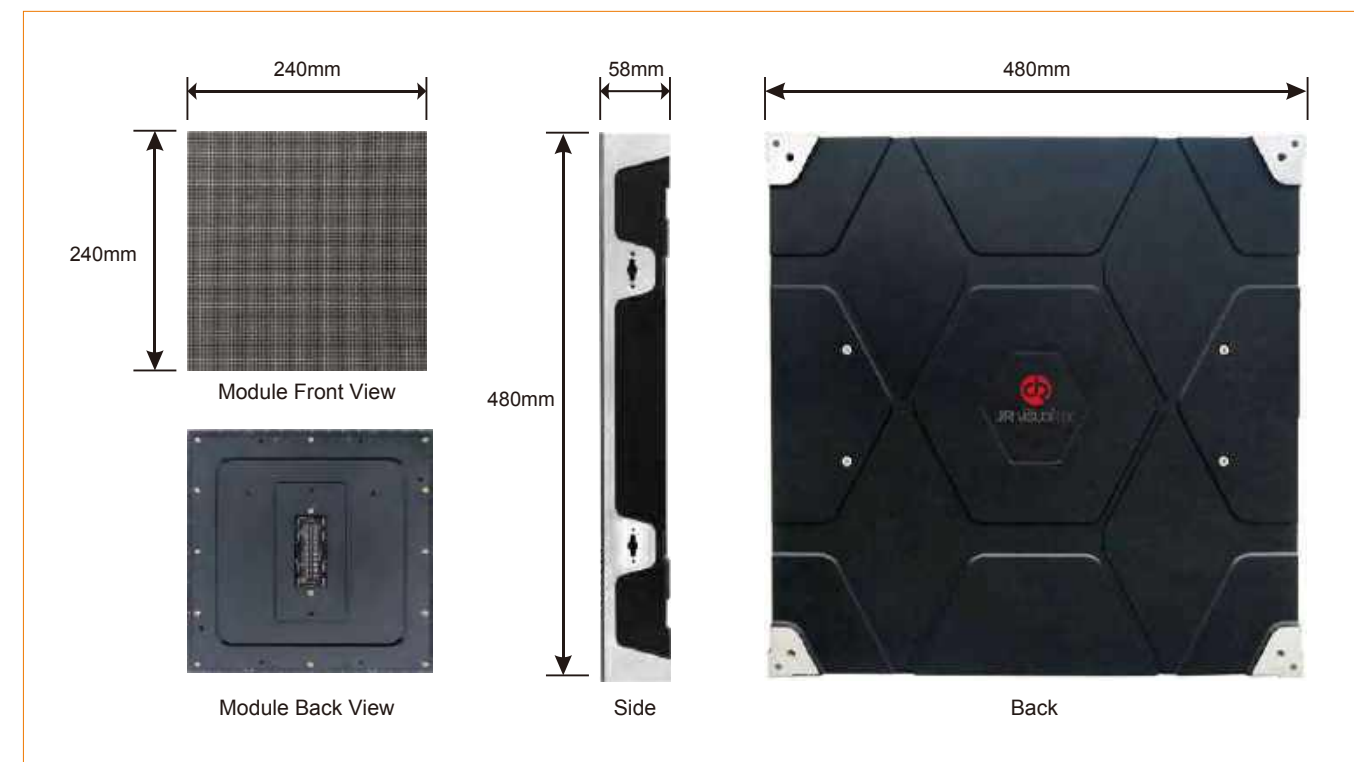

System data polishing process, HDR high dynamic fine imaging can be realized at low brightness and high gray simultaneously, Enhance the level of gray scale, make scene more reality and color more gorgeous, with anti-gamma correction technology, enjoy 3840Hz high refresh rate and dynamic expression of color rendition.

Low Brightness With High Gray Scale

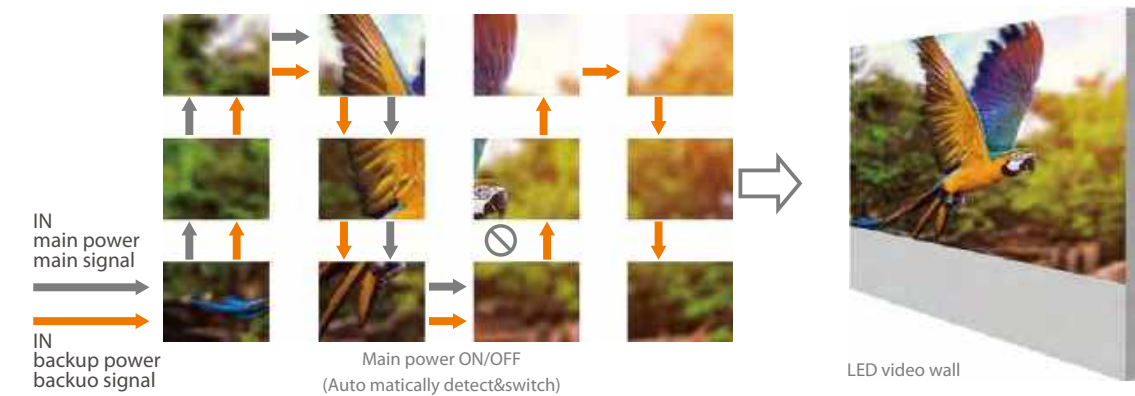

High quality LED Lamps and PWM drive IC, goes with patented mask and special images arithmetic processing that makes a better color rendering, color revivification and more details even in low brightness mode. Excellent gray scale performance even in low-brightness of 100 cd/m².

Product Appearance

Redundant Power Supply And Signal Backup

Redundant power supply design, dual signal inputs, automatically detecting the failure and switch, ensure the whole system's stability and reliability.

Seamless Wall Mounted Installation, IP65 Level Protection

iMond has fully sealed cabinet structure with IP65 on the back, with waterproof and dustproof function, prevent air impurities entering the inside cabinet, ensure the protection standard under complex conditions, extend the product lifetime, and saving at least 800mm installation space.

Easy And Friendly Installation & Maintenance Experience

Unique innovative magnetic fully front maintenance solution

iTled S

Indoor transparent LED display

S series is the model with normal SMD 3 in 1 LED lamps, soldering on the narrow thin strips, the advantages including high transparency rate from vertical viewing angle, different brightness options with indoor or outdoor SMDs, and wide viewing angle from all sides.

To realize better protection of the iTled S product, acrylic cover was integrated front and rear sides of the LED cabinet, in case of SMD lamps was damaged during installation and transportation..

1,000 to 5,500nits brightness allows S series transparent LED display could be used for both in the building inside and behind the glass windows which under direct sunlight. The product with 55% to 85% transparency ratio has minimal visual intrusion from the cabinet, resulting in a very good even look, ensures the normal view for the people inside at the same time.

Maintenance

Visual
Experience

F series is the model with side-emitting LED lamps soldering underneath the PCB strips, due to unlimited PCB board design, it's possible to make customized cabinet size to fit different glass windows. With the advantages of thin and long strips, result in high transparency ratio from horizontal viewing angle.

Standard brightness is 5,000-6,000nits, definitely it's a truly jaw-dropping choice for media facades display. High resolution graphics and exceptional transparency give the impression of your LED display literally floating in thin air; A mesmerising customer experience and an unrivalled way to grab attention and communicate your brand messaging. Any size, shape and configuration is possible.

Project Case

Whether you're looking for the ultimate storefront display for your restaurant, trade show, festival, stage production, shopping center, museum or retail space; high luminance delivers mind-blowing graphics and motion effects, day and night—dramatically increasing footfall and dwell time.

Product details

- It is indoor curved screen with high resolution, certified with CE, TUV and ETL;
- Crawler-type module design, can make 1.5m circle inner curved and 2m circle outer curved;
- Easy installation and front maintenance, used for indoor installation projects;
- Cabinet size can be customized based on specific requirements;
- Smooth concave and convex curved LED module, no gap between modules .

Maintenance

Easy front service for the LED modules.

Specification (PT2.9 PT3.9 PT4.8)

Model	PT2.9	PT3.9	PT4.8
Pixel Pitch	2.97mm	3.91mm	4.81mm
Pixel Density (pixels/m ²)	112,896	65,536	43,264
LED Type	SMD1415	SMD1921	SMD1921
LED Configuration	1R 1G 1B		
Module Material	Aluminum alloy		
Cabinet Material	Aluminum alloy / Steel		
Module Connection	Connectors / Cable free		
Module Size (WxHxD)	250x250 mm	500x250 mm	500x250 mm
Module Resolution (pixels)	84x84	128x64	104x52
Cabinet Size (mm)	500x1000mm / 500x750mm / 500x500mm		
Cabinet Resolution (pixels)	168x84	128x256	104x208
Recommend Viewing Distance	>3m	>4m	>5m
Brightness (nits)	4,000 - 5,000	5,000 - 6,500	5,000 - 6,500
Refresh Rate (HZ)	1,920 / 3,840	1,920 / 3,840	1,920 / 3,840
Max. Power Consumption (W/M2)	650-760	650-760	650-760
Avg. Power Consumption (WM2)	200-300	200-300	200-300
Weight (kg/panel)	16	16	16
Special Shape Installation	Flat or curve installation (90°≤ x ≤180°)		
Color Temperature	8,000 K as standard (3,200-9,000K adjustable)		
Frame Frequency (HZ)	50/60		
AC Input Voltage	110-220V ±10%		
Viewing Angle (°)	120/90 (H/V)		
Operating Temperature (°C)	-10°C~+40°C		
Storage Temperature (°C)	-20°C~+50°C		
Operating Humidity	10%~95%		
Dead Pixel Rate	<0.0003		
Lift Span	100,000 hours		
Ingress Protection	IP66 front and rear		
Operating Environment	Outdoor use suggested		
Service	Front/Rear access		
Certificate	CE , EMC, LVD, FCC, ROHS, 5VB Fire proof		

P2.9mm P3.9mm P4.8mm

Contracted Design

• Flexible Cabinet Size Options

Available: 500*1000/500*750/500*500mm

• High Brightness

Max. 6,500 nits brightness for such small pixel pitch LED screen

• Light Weight & Slim Cabinet

Weight: 32KG/m2 for aluminum cabinet frame

Weight: 38KG/m2 for steel cabinet frame

Outdoor 2.9mm

Outdoor 3.9mm

Outdoor 4.8mm

Big pixel pitch: P5.7, P6.67, P8, P10
LED module: 480x320mm
LED cabinet: 960x960mm or customized

10,000Nits, Always Bright

Seamless 90° / Concave / Convex

Specification (PT5.7 PT6.67 PT8 PT10)

P5.7mm P6.67mm P8mm P10mm

Elegant Design

- **Modular Design**
Standard 480x320mm LED module size
- **Cable-less LED Module**
BTB connector replace data and power cables, high stability.
- **High Brightness**
Max. 10,000 nits brightness, keep high brightness for long period
- **Longer Warranty**
3 years warranty for LED module (10,000nits version).
- **Light Weight & Slim Cabinet**
Weight: 28KG/m2 for aluminum cabinet frame
Weight: 35KG/m2 for steel cabinet frame
Steel cabinet thickness: 75mm
Aluminum cabinet thickness: 101.2mm

Flexible Cabinet Size Options

Available: 960*1280/960*960/960*640/1440*1280/ 1440*960mm

CCES: Common Cathode Energy Saving

- High Brightness: SMD 10000nits
- Low power consumption.
- Noise-free power supply

Easy Installation and Fast Service

- Total front and rear service available, suitable for many different applications
- Light weight cabinets allow fast installation

Intelligent Lock System

Simple lock design, easy front and back maintenance, four locks in one module, only 8 seconds operation

High Protection Level and Fire Proofing Grade

IP66 Front & Rear

- Full sealed die-casting aluminum module chassis.
- Waterproof connectors between modules and power box.
- Drain hole is designed at the bottom of the panel to prevent ponding.
- Can be immersed in the specified water pressure for a long time.

Excellent Flame Rating

- Die-casting Aluminum material
- High temperature durability
- Corrosion protection
- Reach 5VB fireproofing level

Protection Level from high to low in UL94:
5VB>V0>V1>V2>HB

Clean and Neat Screen Back Side

Excellent Heat Dissipation Performance

- Aluminum module chassis and panel frame accelerates heat dissipation.
- White color frame can reflect the sunlight to reduce the heat generated in the panel

Heat sink design

Module chassis and power supply unit improves heat dissipation considerably

All white color cabinet

- The heat absorption can be minimized under direct sunlight.
- Cables hidden here, covered with a box

Creative Installation

90° - 180° curve LED screen installation possible

Details of Mounting

Click and Lock

Outdoor IP68 waterproof power and signal connectors, high quality & stable

Independent waterproof power box, dual internal power/signal connections

Possible for seamless 90 degree screen and curve installation

Optional installation for LED ceiling, light weight and fast installation

Customized length for creative LED display project

Adopting with 3 in 1 LED lamp, viewing angle is wider up to 140 °V / 140 °H, as a result of great visual experience

The minimum viewing distance can be up to 10 meters

Suitable for small size and close viewing distance LED screen project, which installed in lower layers of the building.

Narrow

Narrow LED strip with only 5.8mm thickness, so far. It's the thinnest LED strip for outdoor fixed LED mesh

Patent Design

Empty space under the PCB, allows the whole strip kept as a whole unit generated by the heat-expansion and cold-construction of aluminum strip.

Light Weight

Only 4.5-8.3kg per panel, one person installation, easy and fast

16bit pwm drive IC

Ordinary drive IC

High Resolution

At a certain transparency rate, it's high resolution at the same time, benefit from the narrow strip design.

High Resolution

General resolution

High Brightness

Whole series with SMD solution, brightness is more than 6,500nits, visible under all kinds of ambient conditions.

Highlight display

Normal brightness display

High transparency, up to 70%

One person installation, easy and fast

Easy to fix cabinet with the frame Simple and compact

Project Case

Suitable for large size and long viewing distance LED screen project, which installed in middle and high layers of the buildings.

Long Strip

1500mm long strip as a result of high transparency rate, up to 59% transparency rate at 31.25mm pixel pitch. At the same time, the drag coefficient is very low, stable even under strong typhoon environment.

Low Power Consumption

Only 170 W/sqm operation power consumption, saves huge electricity cost for large size screen.

High Brightness

Up to 10,000nits brightness with DIP solution, long life time.

Easy Installation

With general aluminum profile sub structure, and fast lock system which integrated on the cabinet, as result of fast installation and labor cost saving.

High Protection

IP66 proection level front and rear with sealed power box, signal and power connector protection level is actually IP68, ensures the signal transmission for all day long.

Safe

Each cabinet with safety wire, high saftey during installation and maintenance.

Classic model of outdoor transparent LED display, with flexible pixel pitch and cabinet size for different kinds of applications.

Commercial-grade iPoster - LED digital signage offers business of every size the tools to delivery engaging, customized and optimized messaging to accelerate sales and growth.From large international airports to the coffee shop down the street, iPoster is used by all types of industries around the world.

iPoster is a perfect dynamic replacement for traditional printout banners, posters and backlit signages. Check out what each one of your storefront posters cost and divide that into the cost of a iPoster, you surely will find replacing slower, costly, and less efficient printed methods of information distributing with iPoster.

Ultimate Versatlity

Fold-out standing, 90-degree standing, hanging or creative wall mounting.

Bracket standing

Base standing installation

Hanging

Multi-screen cascade

Creative installation

iPoster Specification

Model		iPoster 2.5mm	
Display	Diagonal Size	78"	
	Display Area (m²)	1.06	
	LED Lamp Type	SMD2020 black 3 in 1	
	Pixel Pitch (mm)	2.5	
	Resolution (dots)	224*756	
	Brightness (nits)	≥ 1,000	
	Contrast Ratio	3000 : 1	
	Refresh Rate (HZ)	≤ 3,840	
	Color Temperature (K)	6,500	
	Viewing Angle (H/V)	160°/160°	
Dimensions	Operation Hours	24/7	
	Display Size (mm)	560*1890	
	Bezel Thickness (mm)	6	
	Poster Size (mm)	572*1902*35	
	Module Size (mm)	280*210	
Weight	Bezel Thickness of connected multi-posters (mm)	12	
	Set (kg)	30.6	
Connectivity	Input	Video	Support RM, FLV, AVI, MP4, and other mainstream video formats
		Image	JPEG, BMP, GIF, PNG, WEBP
		Animation	GIF
	Networking		Wire/Wi-Fi/4G
	User Terminal		PC/Tablet/Phone/Flash Drive
Power	User Terminal System Compatible		Android/iOS/Windows
	Model		GN brand, 2 psu for each poster, Integrated
	Power Supply		AC100-240V(+/-10%),50/60Hz
	Power Consumption	Max (W)	600
		Typical (W)	200
Service	Service Access		Front
Protection	Protection Level		IP34, Acrylic cover(2mm) in the front side
Green Management	EMC		Class A
	RoHS Compliant		Yes
	Packaging Recyclability		Yes
Safety Compliant	Safety Standard		CCC (China) : GB4943.1- 2011
Embeded Media Player	Model		Novastar T6, Integreated
	Storage		8GB
Content and Terminal Management	ViPlex Express		PC Terminal and Content Management Client Software
	Viplex Handy		LAN-based Terminal and Content Management Client App for Phone and Tablet
	Cloud Based Service (Optional)		VNNOX: Cloud based content and terminal management. NovaiCare: Cloud based terminal monitoring
	Control Mode		Asynchronous / Synchronou
	Opertion Language		English/Chineses
	Included		Fold-out Stand, Premium Oxford Carrying Bag
Accessories	Optional		Floor Standing Base
	Standard		Full 1 Year
Warranty	Extended		2/3 Years

Eye-catching from far away

Cool screen size (572mmx1,902mm) to attract attention even from a distance!

Multi-screen connection

Multi-screen connection for magnificent visual effects.
6mm thin border and up to 2880Hz for smooth video playback
Applied display refresh rate, brighter than traditional LCD display
High brightness display up to 1500nits with 160 ° wide viewing angle.

Easy operation

Control via smartphone / computer / WiFi / USB connection.
LED banner supports all operating systems (IOS / Android / Windows).
Easy content replacement and product operation via smartphone.

Best design

Designed with the best design for the customer,
LED banner is more beautiful and easy to use
Taking into account everything, the optimal design was applied.

Wherever you want!

Stop the original printing poster now!
LED banner is an innovation.
Banks, hospitals, shopping malls, convention centers, gas stations, supermarkets, restaurants, applicable in anywhere!

NEW GENERATION DISPLAY, NEW VISUAL EXPERIENCE

Applications

HD display picture quality

Multiple screen splicing, no edge line

3840Hz refresh rate
160° Wide view angle

Flexible combination

6/5/4 cabinets high

Synchronous/Asynchronous mode

Low power consumption

It saves about 10% more energy than normal screen.

Low brightness and high grey scale

Suitable for long time viewing.

High IP level

Adopt all-weather protection technology IP34.

- Collision protection
- Moisture protection
- Anti-static
- Efficient heat dissipation

Appearance

- Cabinet is light and thin
- Easy to setup and dismantle
- Thickness 38mm
- Weight 32KG
- With audio system

FENIX

Indoor - P1.56 P1.95 P2.6 P3.9

Outdoor - P1.56 P1.95 P2.6 P2.97 P3.9

M+M Lock : Mechanic + Magnetic Lock, safe & reliable

Features

- M+M Lock
- Fast Install
- Multifunctional
- UV Proof
- Dustproof
- Waterproof
- 90 Degree
- Magnetic

M+M Lock

Mechanic + Magnetic Front Lock

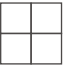

- Mechanic front maintenance
- Highest security level
- FPI: Fine Pitch Indoor
- FPO: Fine Pitch Outdoor
- Double IP67 insurance

Specifications

Model	OS4
Pixel Pitch	4mm
Pixel Density (pixels/m ²)	62,500
LED Type	SMD1921
LED Configuration	1R 1G 1B
Module Material	Rubber with magnets
Module Connector Type	HUB75
Module Size (WxHxD)	320x160x12 mm
Cabinet Size (mm)	Customized based on standard module size / Steel cabinet
Module Resolution (pixels)	80x40
Curve Min Diameter	1019mm
Curve Angle	≥162°
Recommend Viewing Distance	4-30m
Screen Flatness	≤ 0.6 mm
Module Input Voltage (V)	5
Module Max. Input Current (A)	6
Max. Power Consumption (W)	600
Avg. Power Consumption (W)	170
Module Weight (g)	600
Brightness (nits)	>5,000
Refresh Rate (HZ)	1,920 - 3,840
Scan Mode	1/10
Color Temperature	6,500 K as standard (3,200-9,000K adjustable)
Contrast Ratio	5000 : 1
Frame Frequency (HZ)	50/60
AC Input Voltage	110-220V ±10%
Viewing Angle (°)	140 / 120 (H/V)
Operating Temperature (°C)	-10°C~+50°C
Storage Temperature (°C)	-20°C~+60°C
Operating Humidity	10%-95%
Dead Pixel Rate	<0.0003
Lift Span	100,000 hours
Ingress Protection	IP65 (With steel cabinet)
Operating Environment	Indoor & Outdoor
Service	Front access

Note: Specifications are for reference only and are subjected to change without notice.

O-Soft

Outdoor Flexible LED Module

Unlimited Possibilites for Outdoor LED Display

Thermostability

Waterproof

Better Flexibility

Easy Maintenance

Easy installation and maintenance

Removable module rear cover

Outdoor Soft Modules

Allow another outdoor display possibility

Protection Grade

IP65

Anti-Dropping Safety Design

Extra safety steel rope attached to the modules, in case of module falling down

Tyre Design

Fit with steel cabinet easily

Cell Design

Extreme Visual Beauty

Increased Interfaces Safety

Special waterproof designs of interfaces with better protection

Outdoor Curve Screen Installation

Outdoor LED Column Installation

Sealed Rear Cover

Waterproof & Dustproof
Soft Silicon Rear Cover

Convex can Curve at Angles Above

$\geq 162^\circ$

Big curve angle supports diversified outdoor LED screen designa.
